### **NAME OF AGENCY PROPOSING THE PROJECT:**

Department of Defense/Department of the Navy

### **PROJECT DESCRIPTION:**

The Navy proposes to construct two human performance shelter facilities to provide specialized training facilities to naval personnel stationed at Naval Air Station Oceana, Dam Neck Annex. The first structure, a Human Performance Field, will be a 5,000-square foot fabric structure with open ends and an artificial turf ground-cover. The facility requires electricity, but no other utilities. The second structure, a Human Performance Facility, is a 5,000-square foot fabric structure with a concrete slab. The facility requires electricity and a HVAC system.

A federal consistency determination has been submitted for this proposal which finds it consistent to the maximum extent practicable with the enforceable policies of the Virginia Coastal Resources Management Program (VCP).
